THE DÉANTA COLLECTION

At Déanta we manufacture and supply a wide range of beautifully crafted stylish interior doors. Our collection includes oak, walnut, dark grey ash, light grey ash, abachi and white primed doors along with a selection of FD30 fire doors.

We also manufacture a range of skirting, architrave and door lining sets in oak, walnut and white primed. These sets use the same hand-picked veneers as our doors, complementing them perfectly.

All Déanta doors are made to the highest standard with only the finest of materials ensuring you get the best from your contemporary Déanta door. Our design team tirelessly follow the door industry to come up with new, exciting designs to add to our ever-increasing collection. Our rigorous testing procedures ensure that only the very best doors make it to market.

Déanta offers the largest lippings available in the UK internal door market. All of our doors have 18mm lippings around the entire door meaning that a total of 32mm can be taken off the height and width of all our standard doors ensuring they will fit into any size opening. *

We only ever produce solid core doors that are heavy and robust and are finished with specially selected crown cut oak, walnut, dark grey ash and abachi veneers to give a real timber look and feel. Our white primed doors are produced in the same way as our veneered doors and are ready for a one-coat finish.

All of our prefinished doors are FSC® certified.

Look for FSC® certified products.

* Please refer to the fire certs at deanta.co.uk for advice on FD30 lippings.
